Product status adjustment INFO-Link

More than 10 years ago, we successfully introduced our GinLink Gigabit Ethernet Fieldbus System as a successor product for the INFO-Link Fiber Optic Fieldbus.

We informed you that as long as the required electronic components can still be procured and there is still demand from your side, we would continue to maintain the spare parts production of INFO-Link peripheral devices such as Servo Drives and I/O Modules. As before, this situation has not changed. We plan to continue to maintain the spare parts production of INFO-Link peripherals as long as possible.

However, please be informed that the product statuses of the products listed below will be changed from "Full production" to "Mature product" as of March 18, 2021. The product statuses are visible on all Indel documents. Please do not plan any new machine generations with these products. Continue to plan for the use of successor products and / or the build-up of a spare parts inventory. In the event of unexpected product discontinuations, Indel will not have a spare parts inventory which can cover the demand for new machines.

In case of questions or uncertainties, please do not hesitate to contact us at
+41 (0)44 956 20 13 or sales@indel.ch.

INFO-SAC3 high-end servo drives

Indel no.	Label	Option	Current product status	Product status as of March 18, 2021
610838828	INFO-SAC3	5A/STO	Full production	Mature product
610838826	INFO-SAC3	4A/230V/STO	Full production	Mature product
610838825	INFO-SAC3	2.5A/STO	Full production	Mature product
610838824	INFO-SAC3	24A/STO	Full production	Mature product
610838822	INFO-SAC3	16A/STO	Full production	Mature product
